

The Battle of Neighborhoods

Introduction:

This project is intended to help in exploring facilities around the neighborhood, to make efficient decision on selecting a particular region out from the neighborhood of Scarborough, Toronto.

This project is for people looking for better neighborhoods. For ease of access to amenities such as Cafe, School, Supermarket, medical shops, grocery shop, theatre, hospital, ethnics, etc.

This project aims to create an analysis of features for a people migrating to Scarborough to search a best neighborhood as a comparative analysis between neighborhoods. The feature includes better school according to ratings, road connectivity, weather conditions, good management for emergency, water resources, and sewage systems and hangout facilities. This will help to have awareness of the area and neighborhood before moving to the new city, state, country or place for their work or to start a new life.

Problem to Solve:

The major purpose of this project, is to suggest a better neighborhood in a new city for the person who are shifting there. Social presence in society in terms of likeminded people. Connectivity to the airport, bus stand, city center, markets and other daily needs things nearby.

1. Which areas have houses?
2. What is the average prices of the houses in the neighborhood?
3. Which schools in the area are good?
